SUMMARY

I am a dedicated and enthusiastic learner with experience in projects and research. I have a strong academic foundation, hands-on technical experience, and a strong interest in continuous learning and skill development.

EDUCATION

Karunya Institute of Technology and Sciences	2023 – 2027
B.Tech in Artificial Intelligence and Data Science	CGPA: 8.51

INTERNSHIPS

Data Science and Machine Learning Intern, 4i Apps	May 2025
– Performed data preprocessing, exploratory data analysis, and basic machine learning model development, gaining exposure to applied data science workflows and industry-oriented problem solving.	

SKILLS

AI / ML: Transformers, TensorFlow, Scikit-learn, LangChain, CrewAI, Ollama, PydanticAI
Backend: Python, Node.js, FastAPI, MongoDB, Firebase
Frontend: HTML, CSS, JavaScript, TypeScript, React, Tailwind CSS, Bootstrap
Tools: Git, GitHub, VS Code, Postman, Docker, Linux, HuggingFace, Tableau

ACHIEVEMENTS

- **Special Mention Award**, Cyberthon 2025 — Developed a *Cyber Laws Chatbot* for cybersecurity and legal awareness.
- **Project Submission**, Smart India Hackathon (SIH) 2025 — Submitted the *Smart Curriculum Activity & Attendance App*, an AI-based system for automated attendance and personalized academic activities.

PROJECTS

Cyber Laws Chatbot

Developed an AI-powered chatbot to answer queries on Indian cyber laws using the LLaMA 7B model, providing legal guidance and cybersecurity awareness.

Blind Spectacles Assistance System

Designed an assistive system to help visually impaired individuals by identifying objects and guiding safe navigation using computer vision.

IEEE Paper Formatter

Built an automated tool that generates and formats IEEE-compliant research papers based on user-provided titles and inputs.

CERTIFICATES

AWS Academy Graduate – AWS Academy Cloud Foundations	Feb 2025
Cybersecurity Essentials – Cisco Networking Academy	Aug 2025
CCNA: Introduction to Networks – Cisco Networking Academy	Apr 2025
Full Stack Web Development (MERN Stack)	Oct 2025
